kretta® BATH

E

Nuestra dedicación constante a la investigación tecnológica nos ha permitido desarrollar un producto perfecto y vanguardista en un campo en constante evolución, como es el mundo de la decoración y el diseño.

Ofrecemos las mejores soluciones estéticas para las últimas tendencias en diseño e interiorismo, cada vez más iconoclasta en la combinación de formas, colores y materiales.

Nuestros sistemas de fabricación patentados nos permiten una reproducción fiel de texturas y tonos de piedras, ladrillos y vigas, pero además la facilidad de instalación, resistencia y calidad convierten a nuestro producto en uno de los más demandados por los profesionales expertos.

La utilización de los productos Kretta®- Panelpiedra- Panel Stone permite crear ambientes que combinan elegancia, diseño y calidad.

KRETTA KRELUX ®

Es uno de los productos de mayor calidad del mercado. Sus cualidades son su solidez, nula porosidad y resistencia a todo tipo de bacterias. Las propiedades del Kretta Solid Surface®, vienen detalladas en la norma internacional ISO19712 como la resistencia al agua, al choque térmico, al calor, al impacto contra su superficie, a los productos químicos y a la enorme dificultad de que se produzcan manchas.

Nuestros ensayos tienen como finalidad conseguir la estabilidad del color (como por ejemplo el blanco), la dureza, la resistencia a microorganismos, la fácil limpieza y la higiene. Nuestro material está compuesto de resinas acrílicas y de trihidratos de aluminio. Con todo ello hemos conseguido crear un producto de gran blancura y tacto sedoso, que combinado con el resto de piezas exclusivas de nuestro catálogo forman un conjunto ideal para espacios donde el diseño es fundamental.

KRETTA KERAMICA Y KRETTA COMPACTO ®

Se trata de un innovador producto que, gracias a su composición, imita fielmente cualquier tipo de textura como el mármol, pizarra y madera entre otros. Ideal para aplicar en platos de ducha, encimeras y revestimientos de todo tipo de paredes.

Es apto para todo tipo de ambientes, especialmente aconsejable en lugares donde exista mucha humedad y grandes variaciones medioambientales: Baños -Saunas -Fachadas interiores y exteriores -Grandes construcciones -Zonas de tránsito. Nuestro material está compuesto por 16 tipos de cargas minerales como piedra, mármol, sílices y silicatos.

Toda su estructura esta coloreada y mezclada con diferentes tipologías de resinas acrílicas, lo que la hacen muy resistente en baños y especialmente aconsejable su aplicación en zonas húmedas interiores o exteriores.

Sus propiedades ignífugas e hidrófugas, su inalterabilidad al choque térmico y a sus ciclos de hielo y deshielo así como su nulo porcentaje de absorción de agua garantizan su completa estanqueidad, su nulo desgaste por abrasión y su alta resistencia a la mayoría de productos químicos. Importante destacar su resistencia al fuego y a todo tipo de inclemencias climatológicas.

Otra de sus cualidades más destacadas es su bajo peso y su alto volumen, consiguiendo con ello una fácil instalación.

Todas estas características hacen que el producto Kretta Keramica y Kretta Compacto ® sea un material de alta calidad, diseño vanguardista e innovador, idóneo para aplicar un toque de distinción incluso en los escenarios climatológicos más desfavorables.

EN

Our ongoing commitment to technological research allowed us to develop a cutting edge product within a constantly evolving industry, as it is the world of decoration and design.

We offer the best aesthetic solutions for the latest trends in interior design and, increasingly iconoclastic combination of shapes, colors and materials.

Our patented manufacturing systems allow us to faithfully reproduce textures and colors of stones, bricks and beams. The easy installation, strength and high quality of our products, makes them highly demanded by professionals.

The use of "Kretta®- Panelpiedra- Panel Stone" products allow customers to create atmospheres that combine elegance, quality and design.

KRETTA KRELUX ®

It is a high quality material (due to its composition, one of the highest quality products in the market). It's a solid material with no porosity and resistant to all kinds of bacteria. Kretta Solid Surface ® properties stand out in the international standard norm ISO19712 where water resistance, thermal shock, heat, impact, stain, chemical products, cigarette burn are determined. And tests related to ensure color stability (like white), strength, resistance to microorganisms, cleanliness and hygiene and the possibility of union and renewability have been carried out. Kretta Solid Surface® is composed of acrylic and aluminum trihydrate resins. It is a high quality material with high whiteness and silky feel, which combined with unique designed pieces for places with high decoration design.

KRETTA KERAMICA Y KRETTA COMPACTO ®

Is a very innovative product that because of its composition faithfully imitates any texture (marble, slate, wood etc) to be used in shower trays, countertops and wall covering for all types of walls. It's suitable for all kind of places especially rooms of high humidity. It's formulation is made with more than 16 types of minerals (ie: stone, marble, silica, silicates, etc.) colored throughout its composition and mixing a few different types of acrylic resins which make it very resistant in the bathroom, indoor-outdoor, fire and all kinds of weather, and also high resistance to abrasion, friction and chemicals. Another important property is its low weight and high volume, which makes it very easy to install. It is very suitable for bathrooms and public places of high traffic of people, facades and large buildings, high humidity and high temperatures places such as saunas, etc. It has fire retardant properties, water-repellent, resistance to thermal shock and its cycles of freezing and thawing. Its zero percentage of water absorption guarantees full tightness. Its high resistance to most chemicals, along with its non-abrasive wear makes Kretta Compact HD® a high quality material.

FR

Notre constant souci d'innovation technologique nous a permis de développer une large gamme de produits innovants dans un milieu en constante évolution du monde de la décoration et du design.

Nous vous proposons les meilleures solutions de tendance et de design : plus de matières, de formes et de couleurs.

Nos modes de fabrication brevetés nous permettent une reproduction fidèle des textures, des tons de pierres, briques et poutres. Outre la simplicité d'installation, la résistance et la qualité de nos produits fait qu'ils sont parmi les plus recherchés par les professionnels.

En utilisant les produits Kretta®- Panelpiedra- Panel Stone, créez des ambiances originales en combinant élégance, design et qualité.

KRETTA KRELUX ®

Kretta Bath® est une produit de haute qualité (grâce a sa composition des matières, un des supérieures disponible dans le marche) Le produit est massif, non poreux et résistant aux microbes. Kretta Solid Surface® réussit très bien selon le norme ISO 19712 en matière de résistance a l'eau, secousses thermique, chaleur, buter, taches, produits chimiques et brulures de cigarettes. Il y a eu des tests pour assurer la stabilité, inaltérabilité de la couleur (comme du blanc), résistance a micro-organismes, nettoyage et hygiène ainsi que le possibilités pour suture en rénovation. Kretta Solid Surface® est composé du acrylique et aluminium tri hydrate résine. Le produit détenir une haute qualité avec un blancheur brillamment et frôlement soyeux. Utilisez comme objet unique au dans combinaison de créer un ambiance avec une valeur décoratif élevé.

KRETTA KERAMICA Y KRETTA COMPACTO ®

Une matière très innovatrice pour faire, grâce a sa composition, des reproductions très fidèle des plusieurs textures (marbre, pierre naturelle, bois) pour faire produits comme plancher de douche, plan de travail et revêtements mural. Adaptable pour plusieurs applications, spécial des situations avec circonstances du haute humidité. La formulation du matériel est composé de plus que 16 espèces minérales (comme pierre, marbre, silices, silicates etc.) qui sont colore déjà dans la composition avec différent genres du résines acrylique, par lequel le produit est très résistant dans salles de bains, intérieur, extérieur, chaleur (feu) et par tous les temps. En même temps bonne résistance a abrasion, froter et produits chimiques. Facile pour installation grâce a sa poids légers et grande dimensions. Plus demandé pour utilisation équipement sanitaire, salles de bains, d'espace public, places ou se passent beaucoup des gens, façades de bâtisses et circonstances avec haute températures et haute humidités comme des saunas (publique) et piscines. Bien résistante au feu, imperméable, résistant aux variations de température et cycles de geler et dégeler. Grace a son étanchéité a l'eau pas du insertion de l'eau, résistance au chimiques et ses autres caractéristiques KRETTA COMPACT HD® est une matériel varié de haute qualité.

DE

Immer auf dem neuesten Stand der Entwicklungen: Panel Piedra ist es gelungen, ein avantgardistisches Produkt für die Dekoration- und Designwelt zu entwickeln.

Wir bieten die besten ästhetischen Lösungen für die neusten Tendenzen von Design und Innenraumgestaltung, aufgrund von Kombinationen von Form, Farbe und Material, an.

Unsere patentierten Fabrikationssysteme lassen eine naturgetreue Nachbildung von Texturen und Tönen wie Natursteinen, Ziegelsteinen und Balken zu. Die einfache Anbringung, Widerstandsfähigkeit und hohe Qualität des Materials machen unser Paneel zu dem Produkt mit der größten Nachfrage in der Branche des Innendesigns.

Die Verwendung von Produkten Kretta®- Panelpiedra- Panel Stone erlaubt es, Atmosphären zu schaffen, die Eleganz, Design und Qualität miteinander kombinieren. So macht Innendesign Spaß!

KRETTA KRELUX ®

Es ist eines der hochwertigsten Produkte auf dem Markt. Seine Qualitäten sind, die hohe Resistenz gegen jede Art von Bakterien, keine Porosität und ein solides Finish. Die Eigenschaften von Kretta solid surface werden in der internationalen Norm ISO19712 detailliert aufgeführt, wie zum Beispiel: Resistenz gegen Wasser, thermischer Schock, Wärme, Stöße, chemische Produkte, Feuer und gegen jeglichen Schmutz. Unsere letzten Tests im Labor galten der Farbtintensität ohne ausbleichen (wie zum Beispiel Weiß), der Härte, der leichten Hygiene und der Resistenz gegen Mikroorganismen. Unser Material ist aus Acrylharze und Aluminium Trihydrate hergestellt. Wir haben es geschafft ein Produkt von reiner weißer und einer seidigen Oberfläche herzustellen. Durch diese ganzen Eigenschaften ist es uns gelungen, in Kombination mit unseren anderen Produkten, ein Ambiente zu schaffen das für Design steht.

KRETTA KERAMICA Y KRETTA COMPACTO ®

Aufgrund der innovativen Zusammensetzung, imitiert unser Produkt jegliche Texturen, wie unter anderem Marmor, Stein und Holz. Es ist perfekt für den Einsatz von Duschwannen, Küchenseilen und alle Arten von Wänden die verkleidet oder dekoriert werden sollen. Es ist speziell für Orte mit hoher Feuchtigkeit und Temperaturschwankungen geeignet wie zum Beispiel: - Badezimmer - Saunen - Fassaden - Große Konstruktionen - Belebte Zonen Unser Material setzt sich aus 16 verschiedenen Mineralien zusammen, darunter Stein, Marmor, Acryl und Trihydrate. Ein der wichtigsten Eigenschaften ist das geringe Gewicht wodurch die Installation sehr schnell und einfach ist. Unser Produkt ist feuerfest und wasserabweisend, ausserdem hat es eine hohe Schock- und Thermoresistenz. Kretta Compat HD® ist nicht abrasiv und beständig gegen fast alle chemischen Produkte und klimatische Einwirkungen. Zu dem überzeugt Kretta Compat HD® durch sein geringes Gewicht, grosses Volumen und die einfache Verarbeitung. All diese Eigenschaften machen Kretta Compat HD® zu einem Produkt von hoher Qualität mit vanguardistischem Design.

I

Il nostro costante impegno nella ricerca tecnologica, ci ha consentito di sviluppare un prodotto perfetto e all'avanguardia in un campo, in continua evoluzione, come quello della decorazione e del design.

Offriamo, combinando forme, colori e materiali, le migliori soluzioni estetiche in sintonia con le ultime tendenze del design e dell'arredamento di interni.

I nostri procedimenti brevettati di fabbricazione, ci consentono di riprodurre fedelmente nelle forme e nelle sfumature di colore pietre, mattoni e travi. La qualità, la robustezza e la facilità di posa, fanno sì che i nostri prodotti siano i più richiesti da tutti i professionisti del settore.

L'utilizzazione dei prodotti Kretta®- Panelpiedra- Panel Stone consente di creare ambienti che uniscono eleganza, design e qualità.

KRETTA KRELUX ®

Materiale di grande qualità .Grazie alla sua composizione è uno dei prodotti di maggiore qualità sul mercato. E' un materiale solidissimo con porosità zero e resistente a tutti i tipi di batteri. Le proprietà del Kretta acrylic solid surface®, rispettano totalmente la norma internazionale ISO19712 con specifico riferimento alla resistenza all'acqua, allo shock termico, al calore, all'impatto violento, alle macchie, ai prodotti chimici, alle bruciate di sigaretta. Il materiale, inoltre, è stato sottoposto a test e prove relative a garantire la stabilità del colore (ad esempio il bianco), della durezza, della resistenza ai microorganismi, della pulizia ed igiene , nonché a garantire nel tempo la affidabilità e la rinnovabilità. E' un composto di resine acriliche e triidrato di alluminio. Materiale di grande qualità con un elevato punto di bianco e "setoso" al tatto, caratteristiche queste adatte a pezzi unici pensati per interni unici ad alto standard di design.

KRETTA KERAMICA Y KRETTA COMPACTO ®

E' un prodotto innovativo che, grazie alla sua composizione, imita fedelmente qualsiasi texture (marmo, ardesia, legno, ecc) utilizzabile come piatti doccia, controsoffitti e rivestimenti di ogni tipo di pareti. E' adatto a tutti i rivestimenti, soprattutto posti nei luoghi ad alta umidità. La sua formulazione è realizzata con più di 16 tipi di cariche minerali (pietra, marmo, silice, silicati ecc.) Viene prodotto colorato nella sua composizione e mescolando alcuni tipi diversi di resine acriliche. Questi accorgimenti lo rendono molto resistente in bagno, sia all'interno che all'esterno, al fuoco, a tutte le possibili variazioni climatiche nel tempo, garantendo una grande resistenza all'abrasione ,all'attrito e ai prodotti chimici. Altra importante qualità di questo prodotto è il suo basso peso specifico (basso peso per un grosso volume), caratteristica che agevola moltissimo la sua posa. E' un prodotto adattissimo a essere usato in bagni ad alta frequentazione di persone, facciate esterne di grandi costruzioni, locali ad alta umidità e temperendo come ad esempio le saune. Il prodotto KRETTA COMPAT HD® ha proprietà ignifughe, è idrorepellente, presenta inoltre grande resistenza agli shock termici nei cicli di gelo e disgelo e l'assoluta assenza di assorbimento di acqua ne garantisce la totale tenuta. La sua elevatissima resistenza alla maggior parte dei prodotti chimici, unitamente all'alto gradiente di resistenza all'abrasione, rendono il prodotto KRETTA COMPAT HD® un indiscusso materiale di alta qualità.

NL

Door onze voortdurende inspanningen en technologisch onderzoek hebben we een perfect en avantgardistisch product ontwikkeld zoals gevraagd door de zich zeer snel ontwikkelende decoratie- en designwereld. Wij bieden de beste esthetische oplossingen voor de nieuwste trends in interieurontwerp en –design door uitgekende combinaties in vormen, kleuren en materialen.

Met onze gepatenteerde productiesystemen kunnen we zeer natuurgetrouwe reproducties maken van de meest uiteenlopende dessins en structuren zoals natuursteen, baksteen en hout. De snelle en eenvoudige montage, duurzaamheid en hoge kwaliteit van de gebruikte materialen maken onze producten veelgevraagd door professionals en experts.

Met Kretta®- Panelpiedra- Panel Stone producten creëert u een omgeving waarin Elegantie, design en kwaliteit worden gecombineerd.

KRETTA KRELUX ®

Is een materiaal van hoge kwaliteit (door de materiaalsamenstelling één van de meest hoogwaardige producten in de markt) Het is een massief, niet-poreus materiaal wat resistent is tegen bacteriën. Kretta Solid Surface® presteert optimaal goed volgens de normen van ISO19712 op gebied van waterbestendigheid, thermische shocks, hitte, impact, lekken, chemische producten en brandplekken van sigaretten. Er zijn tests uitgevoerd ter waarborging van stabiliteit, kleurechtheid (zoals wit), resistent tegen micro-organismen, reiniging en hygiëne evenals de mogelijkheden voor hechting en renovatie. Kretta Solid Surface® is samengesteld uit acryl en aluminium tri hydraat harsen. Het is een product van hoogwaardige kwaliteit met briljante witheid wat zijdezacht aanvoelt en als uniek element prachtig gecombineerd kan worden om ruimtes met een hoge decoratieve waarde te creëren.

KRETTA KERAMICA Y KRETTA COMPACTO ®

Is een zeer innovatief materiaal waarmee, door zijn samenstelling, zeer natuurgetrouwe nabootsingene gerealiseerd kunnen worden van vele texturen (marmar, natuursteen, hout) om producten als douchevloeren, werkbladen en wandafwerkingen mee te maken. Geschikt voor vele toepassingen, speciaal op plaatsen met een hoge (lucht)vochttheidsgraad. De formulering van het materiaal bestaat uit meer dan 16 soorten mineralen (zoals steen, marmar, kiezelzande, silicaten etc.) welke al tijdens de samenstelling gekleurd en vermengd worden met verschillende types acrylharsen, waardoor het zeer bestendig is in badkamers, interieurs, exterieurs, tegen hitte (brand) en alle soorten weersomstandigheden. Tevens bestand tegen schuren, wrijving en chemicaliën. Eenvoudig te plaatsen door het lage gewicht en de grote afmeting. Erg gewild voor toepassing in sanitaire voorzieningen, badkamers, openbare ruimtes, plaatsen waar veel mensen passeren, gevels van grote gebouwen en omgevingen met hoge temperaturen en hoge vochtigheid zoals (openbare) sauna's en zwembaden. Goede brandwerende eigenschappen, vochtwerend, resistent tegen temperatuurschommelingen en cycli van vriezen en dooien. Doordat het materiaal geen water opneemt is een volledige waterdichtheid gegarandeerd, samen met de eerder genoemde eigenschappen, resistentie tegen chemicaliën en bestendigheid is KRETTA COMPACT HD® een veelzijdig materiaal van hoge kwaliteit.

En Kretta Bath® te ofrecemos dos texturas ideadas para combinar en un mismo espacio. Las texturas pizarra y flameada destacan tanto por la firmeza de sus materiales como por la belleza y originalidad de su diseño. Ambas superficies se adaptan con armoniosa naturalidad a todos nuestros platos de ducha, lavabos, consolas, encimeras y revestimientos. En definitiva, una magnífica opción para dotar de personalidad a tu baño.

EN

In Kretta Bath® we offer two textures designed to combine in one space. The slate and flamed textures stand out both for the strength of their materials and the beauty and originality of their design. Both surfaces fit naturally with all our shower trays, sinks, consoles, countertops and tiles. All in all, a great option to give personality to your bathroom.

FR

Kretta Bath® est disponible en deux motifs qui on doit mélanger, même dans le même salle. Les motifs ardoise et veiné donnent le produit une présence élégante et robuste au même temps, dans lequel la beauté et originalité des produits est accentué. Les deux surfaces se combinaient harmonieusement en tous nos sols de douche, lavabos, plateau lavabo, cuvettes. Enfin, Kretta Bath® vous offre un possibilité magnifique pour donner votre salle de bain une atmosphère et caractère individuel.

DE

Mit Kretta Bath® bieten wir zwei verschiedene Materialien an die perfekt in einem Ambiente kombiniert werden können. Beide Materialien eignen sich ideal für Duschwannen, Waschbecken, Küchenseiten, und als Wandverkleidung. Eine perfekte Möglichkeit um Ihr Badezimmer nach Ihren eigenen Wünschen zu gestalten.

IT

Con la collezione Kretta Bath® proponiamo due finiture ideate per combinarsi tra loro in modo armonico nello stesso ambiente. Le finiture: ardesia e fiammata. Entrambe mettono in evidenza tanto la compattezza dei suoi materiali quanto la bellezza e originalità del suo design. Entrambe le superfici si adattano con armoniosa naturalezza a tutti i nostri piatti doccia, Lavabi, mensole, ripiani, controsoffitti e rivestimenti. In definitiva, una magnifica possibilità per rivestire di personalità il tuo bagno.

NL

Kretta Bath® is leverbaar in twee oppervlakte structuren welke onderling te combineren zijn, zelfs in dezelfde ruimte. Zowel de leisteen structuur als de gevlamde structuur geven de materialen een robuuste en tegelijkertijd elegante uitstraling waarin de schoonheid en de originaliteit van de ontwerpen benadrukt worden. Beide oppervlakken combineren op harmonieuze wijze al onze douchevloeren, wastafels, wanden en waskommen. Kortom, Kretta Bath® biedt u een prachtige mogelijkheid om uw badkamer een persoonlijke sfeer en eigen karakter te geven.
